

Training Unit

Lead: Training Unit (see *Leadership Roster for Contact Information*)

Reports to: Deputy Supervisor of Programs

Last Updated: 07/06/17

This team plans, arranges, and implements training from small classes to multi-agency exercises. **The importance, complexity and enormity of this work constitutes the core of Beaverton CERT.** Members with a knack for planning and coordination, and the desire to support the organization and membership as a whole, are ideal candidates for this team.

Refresher training is the number one training request from CERT membership surveys and is an ongoing event. Every May and September there is some kind of practical exercise, such as a table-top session on size-up of various disaster scenarios or a rodeo where regional participants rotate among skill stations.
